a. Partly funded by the flagship grant.

b. The BA in SLS started in fall 2011.

c. Data collected on 9/1/16.

**Institutional (IRAO/MIR ) data – Major headcounts**

Every 5th Friday after instruction begins (Fall and Spring), the IRAO takes a snapshot from banner and "freezes it" (Census time). In the institutional data, only primary majors, not secondary majors, are counted for the headcount major data. Students who were on study abroad on the census date are also excluded from the data.

**Modified data based on STAR database**

STAR pulls real-time "live" data (not "frozen" data) (with the rationale that departments need to know what is happening currently). In this modified data, both primary and secondary majors are counted after the semester has ended. Those who are on study abroad are also counted. Students who are on leave are not included.
